

# T3 Smart Robot Vacuum

**Smart sensor**

**Automatic**

**2000Pa  
strong suction**

**73 MM  
Slim design**

**600 ML  
dust bin**

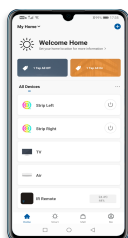

**100 minutes  
run time**

**Schedule  
cleaning**

**Auto  
recharge**

**download  
T3 Smart App**

## ◇ Smart Function

### **Multi-Surface Cleaning**

With the auto vacuum-boosting technology and powerful climbing ability, D2010 can easily work on carpet, tile, and hard wood floor. Note: iMartine C800 is not applicable to dark, black, and high-pile carpets

### **Self Recharging**

It automatically returns to charging dock when the battery power is low. Also, you can control via Application to recharge the Robot.

### **Cliff Sensors**

With fully upgraded anti-drop intelligent sensor technology, D2010 stops itself and returns, it will not fall down from stairs

### **1600Pa Strong Suction**

With 1600Pa strong suction, D2010 robot vacuum can easily pick up fine dust, pet hair and human hair, light weighted debris, and dirt.

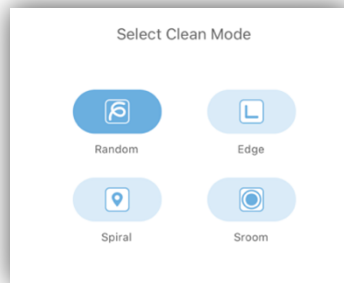

### **Auto-Adjust Vacuum**

D2010 automatically increases suction when it detects carpet. The opposite happens on wood and tile floors

## Anti-Collision Sensors

The robot can change direction itself course when it encounters obstacles. The anti-collision sensor will detect obstacles before robot crash it.

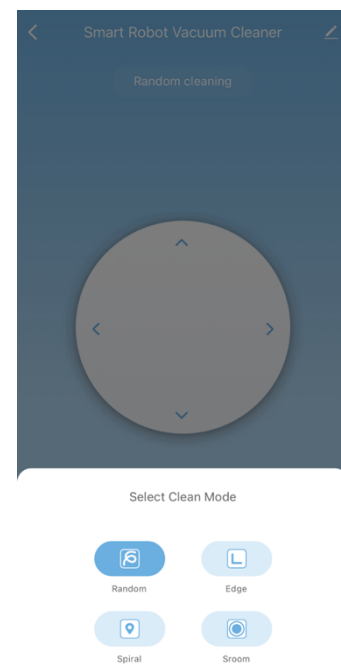

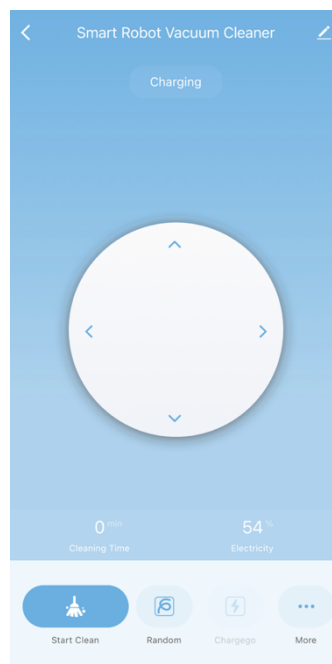

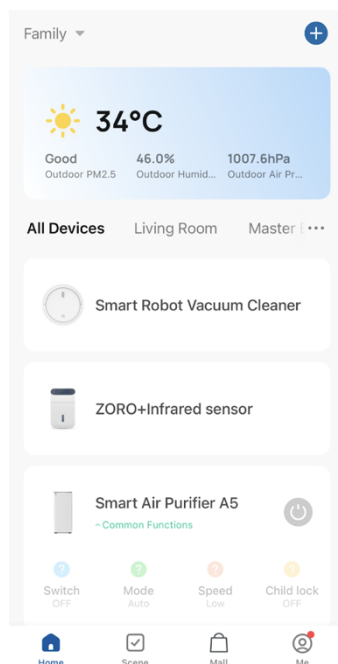

## 4 Cleaning modes

To maximize cleaning, there are 4 cleaning modes that you can choose viz Random, Edge, Spiral and Single room.

## Application control

Make your life is more convenient with control your smart robot cleaner on T3 smart Application. The Application support Android and IOS system to operate smart robot cleaner.

## ◆ Specifications

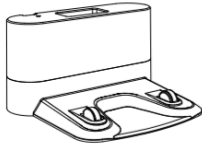

Robot	
Top cover material	ABS+PC
Material	ABS、Metal、Silicone
Machine size	325*324*73mm
Net weight	9.44kg
Gross weight	17.2kg
Dust bin capacity	600ml
Button type	button
Number of buttons	One
WiFi indicator light colour	Blue
Buttom light colour	Blue
Rated power	28W
Working voltage	13.2v-16.8v
Suction	Strong:2000Pa Standard:1000Pa Mute:600Pa
Working time	around 100Mins
Charging time	240min (4h)
Walking speed	15m/min
Running noise	Strong : 73dB
	Standard : 67dB
	Mute : 62dB
Barrier height	15mm
Climbing height	≥15°
Clean area at full power	120m <sup>2</sup>
Carpet pressurization	Support
APP	Support
Operating environment	Temperature : 0-40°C

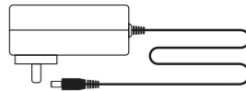

Adapter	
AC adapter input	AC 100~240V, 50/60Hz, 0.8A
AC adapter output	19V/0.6A
AC adapter Line length	1.5m
AC adapter certification	FCC
Charging base input	19V/0.6A
Charging base output	19V/0.6A
Motor	
Main Motor	DaoJin MI-VX20HM8IKA
Motor speed	15500rpm±10%
Motor Rated voltage	12V
Rolling brush motor	RP0390-ST-20143/DV speed : 5000±750rpm
Side brush motor	1.RK-500TB-13500-R-J ; 2.RC500-KN-13500 speed : 5800rpm
Drive wheel motor	1.RP360-ST-15260 ; 2.MD5BFN-18115WB-RC-CE-51 speed : 6800rpm
Battery	
Battery Type	ChuangMin
Battery capacity	2600mAh
Battery Rated voltage	14.4V
Battery Charging voltage	Battery charge limiting voltage 16.8V
Battery life	500 cycles greater than 80% of the initial capacity
Brush	
Main brush	V type floating roller brush
Side brush	2 Pcs , grey, hair length 50mm
HEPA level	G3

## ◇ Package Content

Charging Dock\*1, Adapter\*1, Remote Control\*1 (with 2xAAA batteries), Dust Bin\*1, Side Brushes\*4, Sponge Filter and High Efficiency Filter\*1, Brush\*1, Main Brush\*1, User manual\*1

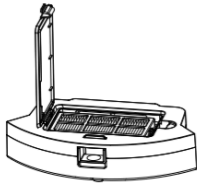

1 x Charging Dock

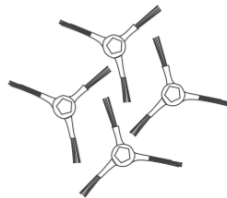

1 x Adapter

1 x Remote Control  
(with 2 x AAA batteries)

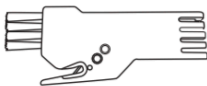

1 x Dust Bin

4 x Side Brushes

1 x Sponge Filter and  
High Efficiency Filter

1 x Brush

1 x Main Brush

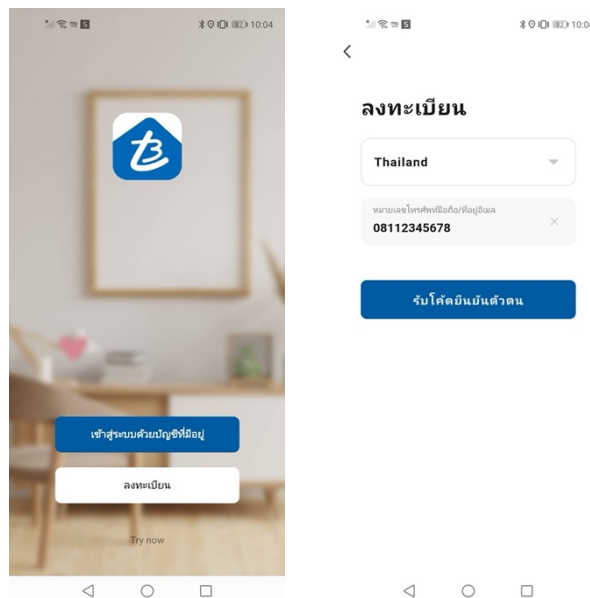

Remark: Charging dock and Adapter can be compatible with Thailand's electrical system.

## ◇ How to connect product with Application

1. Use your smartphone to scan QR code, or search “T3 Smart” app in Google Play Store or APP Store to download and install. This Application support android and IOS.

2. Create an account with your mobile number and authentication code.

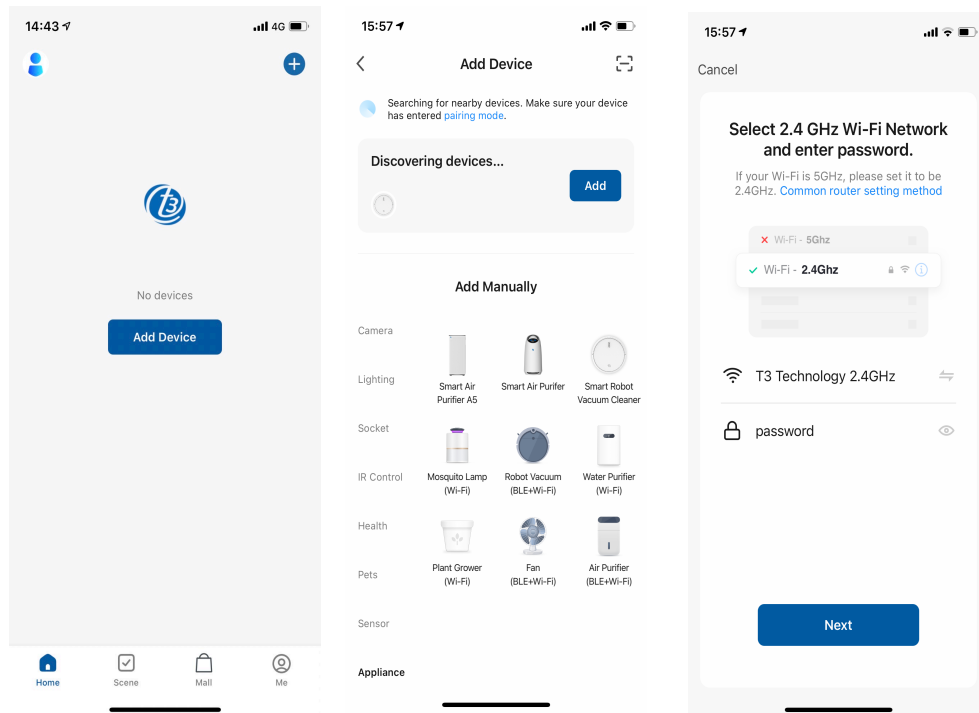

## How to prepare Robot before adding in application

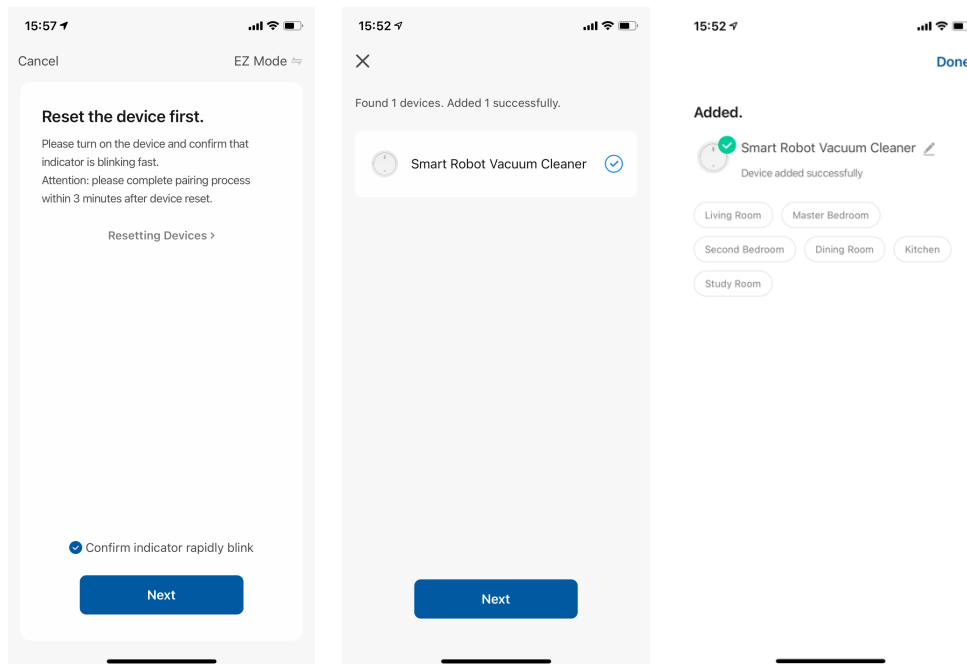

A. Default Mode Connect: Press the Power and Dock button for 5 seconds, you will hear a double tone, Robot Vacuum will reset, wait for the robot vacuum to finish resetting and for the light to quickly flash Now you can add to T3 Smart app.

B. AP Mode Connect: Press the A button for 5 seconds, you will hear a double tone, Smart Vacuum will reset, wait for the vacuum to finish resetting and for the Wi-Fi light to quickly flash. Within 15 seconds. press the M button again, the light will flash slowly, you can now follow the instructions on the T3 Smart app to finish the connection.

3. Tap the "+" icon or Add Device to add, then select "Appliance" and "Smart Robot Vacuum cleaner". After that choose Wi-Fi and fill in password.

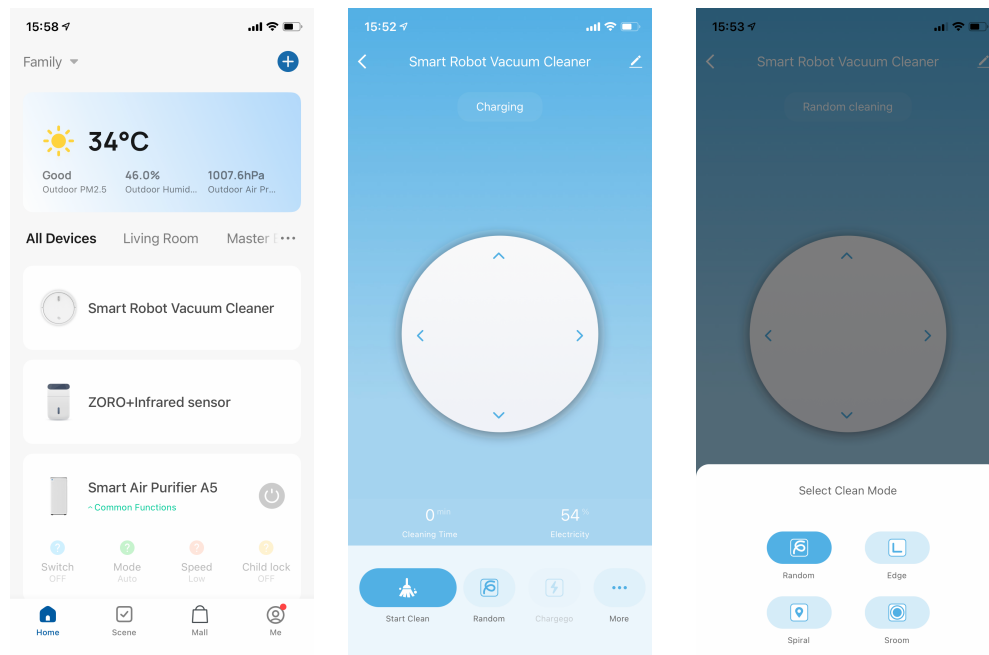

- Follow instruction in the application to complete connecting.

## ◇ How to use Application

- Tap “Smart Robot Vacuum Cleaner” then you can control it on Application.

- You can control direction, turn on and off, choose cleaning mode, call the robot back to charging dock and selecting more for more option such as set schedule for cleaning, change suction level, check brushes and filter status and seeking robot function.
